

Check out these CTE RESOURCES

NOCTI and its partners have identified some **helpful resources** that may be useful for the **career & technical education (CTE)** community.

NOCTI Webinars, Interviews, and Publications

View our library of Spotlight Webinars covering topics from digital badging to new teacher training, check out interviews, and read our published articles from leading publications.

Asia Society

The Asia Society Center for Global Education offers a wealth of resources to educators to build capacity and transform their learning environments. You can find professional development opportunities, training and consulting services, and online resources [here](#).

Education Associates

Education Associates is providing complimentary access to two of their key Public Health Programs: Personal Hygiene and Passive Recreation. You can access this curriculum [here](#).

GEF

Green Education Foundation (GEF) offers free sustainability lessons for K-12 [here](#), and associated activities and programs can be found [here](#).

HBI NAHB

The Home Builders Institute (HBI) announced complimentary access to online learning alternatives for local schools and training programs. The Flexible Instruction Day (FID) material does not require textbooks or workbooks to accommodate self-paced online learning. Access to this material will be available through May 1. Learn more and access the program [here](#).

MBA Research

MBA Research is providing free unlimited student subscriptions for the [Learning Center LMS](#) for all subscribers until June 30. The Learning Center holds over 200 ready-to-use lesson modules (LAPs). Schools that do not currently have a teacher subscription can [purchase for a special price of \\$200](#) for accounts expiring June 30, which also includes unlimited student subscriptions. The \$200 cost can be applied as a down payment toward the purchase of the Learning Center for the 2020-21 school year.

NIOSH

The National Institute for Occupational Safety and Health (NIOSH) offers free curriculum, Youth@Work-Talking Safety, which is designed to help educators teach young people the basics of job health and safety in a fun and interesting way. The curriculum includes information relevant to every occupation and the activities highlight hazards and prevention strategies from a wide variety of workplaces where young people are often employed. The [curriculum](#) is available for each state.

PHCC

The Plumbing-Heating-Cooling Contractors (PHCC) Association is offering their HVAC & Plumbing Pre-Apprenticeship Course at no cost through June 30th. Learn more and register [here](#).

PMIEF

Project Management Institute Educational Foundation (PMIEF) provides no-cost project management learning resources to help bridge the talent gap and build 21st century skills for youth and the community at large. Explore their resources library [here](#).
